Audited Financial Results For the year ended 31 December 2022

CHAIRMAN'S STATEMENT

FOR THE YEAR ENDED 31 DECEMBER 2022

Livingstone T. Gwata
Chairman

I am pleased to present to you the audited financial statements for Fidelity Life Assurance of Zimbabwe Limited (FLA) or the Company together with its subsidiaries (the Group) for the year ended 31 December 2022.

2022 was a year of recovery and growth for the Group as economic fundamentals improved from the tumultuous period during the Covid-19 pandemic. The easing of operational restrictions and full opening of trade the world over gave the business an opportunity to progress its strategic transformation centered on growth and value preservation.

Operating Environment

Economic activity was however constrained by poor agricultural output and price instability in 2022. Gross Domestic Product (GDP) is estimated to have registered 4% growth in 2022 down from 8.5% in 2021. Growth was largely driven by Mining and Tourism which registered growth of 10.0% and 56.3% respectively as they took advantage of high commodity prices and the relaxation of Covid-19 restrictions. Agriculture production contracted by 14.1% due to erratic rainfall after growing 17.5% in 2021.

Inflation spiked in Q2 and Q3 2022 due to external factors particularly food and energy prices, foreign currency market distortions, money supply growth and lack of confidence in the Zimbabwean Dollar (ZWL). The depreciation of the ZWL spiraled in Q2 resulting in month-on-month inflation returning to double digit figures and averaged 21.0% between April 2022 and August 2022. Inflation slowed down in the later part of 2022 due to diverse policy measures introduced by the Government and Reserve Bank of Zimbabwe (RBZ) which included interventions largely aimed at stabilising the exchange rate and taming the resurgent inflation through the introduction of the Mosi oa Tunya Gold Coins, value for money policy, and hiking of interest rates.

On the upside, Zimbabwe recorded its highest foreign currency receipts in 10 years. Foreign currency receipts for the year amounted to USD 11.6 billion which represents an increase of 17.3% in comparison to the USD 9.9 billion received in 2021. The use of the United States Dollar (USD) gained more prominence in 2022 as evidenced by the increased Foreign Currency Account (FCA) deposits, foreign currency denominated loans and proportion of foreign currency revenue to local businesses.

Group Financial Performance Review

The Group's strategic choice to focus on core business resulted in positive results, with the Group posting comprehensive income for the year of ZWL 2 616.9 million on an inflation adjusted basis and ZWL 5 376.4 million on a historical cost basis for the year ended 31 December 2022.

Total income grew by 45% in inflation adjusted terms to ZWL16 514.9 million from ZWL11 359.2 million recorded in the prior year and under historical cost a growth of 523% was recorded from ZWL4 979.2 million to ZWL 31 016.6 million recorded in the current year. The strong income growth was underpinned by core business net premium written and investment income which increased by 230% and 475% respectively. Growth in net premium written from ZWL982.1 million recorded in prior year to ZWL3 245.1 million was above the inflation rate which stood at 243.76% as at 31 December 2022. The growth is premised on regular reviews of recurring premiums, product modifications, new market segments and leaning towards generating USD revenue to keep up with the volatile economic environment. The gains on investment property show the reflective nature of this asset class in response to the macroeconomic sphere.

On an inflation adjusted basis, total benefits, claims and other expenses increased to ZWL15 678.6 million from ZWL10 060.9 million and under the historical cost terms, an increase of 571% was recorded from ZWL4 318.0 million to ZWL28 990.0 million on the back of significant movements in actuarial liabilities reflecting the growth in assets backing the policyholders' liabilities. The net claims ratio closed the year at 41%, whilst operating and administration expenses were on the increase driven by the obtaining inflationary pressures.

Business Operations Overview

The FLA Group continued to prioritize product innovation and access to new market segments. Deliberate focus was put towards understanding both broad and individual needs of selected market segments and this resulted in development and introduction of a wide array of tailor-made products during the year. In support of the product offering and roll out, the Group pursued an aggressive digital strategy to ensure maximum leveraging of best suited technological systems and platforms.

Value creation, growth and preservation of policyholders and shareholders investments remained at the center of all our operations. This broad objective influenced all investment decisions in capital, money, and real estate markets. The Group has since registered a Real Estate Investment Trust (REIT) to spearhead value creation and infrastructure development through public and private partnerships projects.

A combination of these investments coupled with a robust product offering such as 'Vaka Yako' saw the business growing in real terms fueled by organic growth and significant on-boarding of new clients. Diligent updating of products and services enabled the Group to remain relevant and served well in buttressing the continued business growth.

The Brand

The Fidelity Life Assurance of Zimbabwe brand remains grounded in the fundamental trust and service history entrenched in its heritage and rich history. The business' desire to push the brand is a direct result of decades of the trust our customers have in us to protect what they value most and deliver on our promises. The Group received several accolades across various business disciplines in recognition of its contribution to the industry namely second runner up Best Risk Management Insurance Company, Transformation Management of the Year and Internal Audit and Compliance Insurance Company of the Year. The various awards give confidence in our value proposition which we will continue to build on throughout 2023.

Business Culture

Following the integration of the business into the ZHL Group, FLA has adopted the Eagle Culture as part of its transformational journey and service commitment. The new Culture aims at inculcating the characteristics of an Eagle in daily operations with the ultimate objective of amplifying the business' value proposition to all our stakeholders. At the core of the new Culture is the desire to ensure long-term quality service delivery as part of the overall strategic intent. The Board is confident that the inward effort towards cultural transformation is in sync with the Group wide renewed focus on provision of a 360 degrees product portfolio driven by diverse individual needs. The Board strongly believes that the right culture has immeasurable benefit for all stakeholders.

Update on the Regulatory Asset Separation Exercise

The asset separation proposal and requirements were submitted to the Insurance and Pensioners Commission of Zimbabwe. A final position on the matter is expected soon.

Dividend

Due to the need to strengthen the capital position of the Company, the Board resolved not to recommend the declaration of a dividend for the period ended 31 December 2022.

Outlook

As the Zimbabwean economy continues to progress on a stable path with continued Government intervention and regulatory policies that stimulate growth, the Group is optimistic about the future. The FLA team remains focused on executing the business model of resilience and growth centered on providing adaptive insurance, health and financial services solutions driven by customer's needs in the obtaining operating environment. The focus on innovative products is intended to maximize long-term value creation for our stakeholders. The diverse and disruptive products introduced to carefully selected market segments during the year have certainly begun to bear fruit and this is a testament to the Group's drive towards innovation.

The Group remains committed to play its part in Government national programs such as the NDS1 which focuses on creating an upper middle-income society by 2030 through achieving sustainable development and products and services that are aligned to the growth trajectory. The Group will continue to seek both private and public partnerships for housing and infrastructure development projects.

We remain optimistic about future business prospects given the Group's strong fundamentals, opportunities embedded in being part of the ZHL ecosystem, demonstrated capabilities and the team spirit of our Employees, Management, and the Board of Directors.

Appreciation

In closing and on behalf of the Board of Directors, I would like to express our gratitude to our valued shareholders and stakeholders whose support and continued trust give us the confidence to keep on advancing our shared vision.

Livingstone T. Gwata
Chairman
30 March 2023

Notes to the Condensed Consolidated Financial Statements (continued)

For the year ended 31 December 2022

3.2 Functional Currency
The Group's condensed consolidated financial statements are expressed in the Zimbabwe dollars (ZWL) which is the functional and presentation currency of the Company.

3.3 Application of IAS 29 (Financial reporting in hyperinflationary Economies)
These financial results have been prepared in accordance with IAS 29 which requires that the financial statements of any entity whose functional currency is the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting date and that corresponding figures for the previous period also be restated in terms of the same measuring unit.

3 ACCOUNTING POLICIES (continued)

3.3 Application of IAS 29 (Financial reporting in hyperinflationary Economies) (continued)
The restatement has been calculated by means of conversion factors derived from the Consumer Price Index (CPI) reported on the Reserve Bank of Zimbabwe website. The indices and adjustment factors used to restate the financial statements at 31 December 2022 are as given below:

	Index	Conversion factor
CPI as at 31 December 2021	3977.46	3.4376
CPI as at 31 December 2022	13672.91	1.0000

The financial statements of the subsidiary in Malawi which does not report in the currencies of hyper-inflationary economies were dealt with in accordance with IAS 21. The items included in statement of profit or loss and comprehensive income were translated using average exchange rate and statement of financial position items were translated at the closing rates..

Land and buildings are carried at fair value determined on an open market value basis by independent professional valuers. The latest fair value was estimated as at 31 December 2022. There were no buildings pledged as collateral as at 31 December 2022. The value of land and buildings is categorised as a level 3 recurring fair value measurement.

The carrying amount of land and buildings had the assets been measured at cost as at 31 December 2022 is ZWL514,668,701 and ZWL559,312,721 in 2021.

The Group's fair values of investment properties are based on property valuations performed by an independent professional property valuer. Gains and losses arising from a change in fair value of investment properties are recognised in the profit or loss statement.

As at 31 December 2022, the fair values of the properties are based on valuations performed by Homelux Real Estate an accredited independent valuer. Homelux Real Estate is a specialist in valuing these types of investment properties and has recent experience in the location and category of the investment properties being valued. Valuation models in accordance with recommendations by the International Valuation Standards Committee have been applied.

There were no transfers between Levels 1 or 2 to Level 3 during the year. The fair value of investment properties is categorised as level 3.

Significant judgements and assumptions were applied for the Group's investment property portfolio. Land banks and residential properties were valued in Zimbabwe dollar using the market comparison method and the income capitalisation method was used to value commercial properties.

Financial Services

Individual Loans
Salary Based Loans
Farmers Loans
Small business loans

Notes to the Condensed Consolidated Financial Statements (continued)

The carrying value of trade and other receivables classified as financial assets at amortised cost approximates their fair value. There was a significant decline in residential stand sales debtors in the current period as most of the debtors settled their accounts and no new debtors were recognised as the Southview development project has reached its tail end. Included in other receivables balance are debtors arising from non core business activities such as rental debtors and debtors arising from disposal of non core assets from the Southview development project. Receivables from related parties, loans to employees and other receivables are shown net of expected credit losses. The amount of expected credit losses for these receivables are as shown in the table below.

14 LITIGATIONS AGAINST THE COMPANY

In 2015, Fidelity Life Assurance of Zimbabwe, (FLA) entered into a sale of shares agreement with CFI Holdings Limited (CFI) acquiring 80.77% shares in Langford Estates Private Limited, a company whose sole asset is land measuring 834 hectares. The purchase entailed the assumption of CFI Holdings' USD16million debt owed to a consortium of banks by FLA. Subsequently a Debt Assumption and Compromise Agreement was signed between Fidelity Life, Langford Estates (1962) (Private) Limited, CFI Holdings, Crest Poultry (Private) Limited t/a Agrifoods, and FBC Bank Limited, Agricultural Bank of Zimbabwe Limited, Infrastructure Development Bank of Zimbabwe Limited, Standard Chartered Bank Zimbabwe Limited and CBZ Bank Limited. Fidelity assumed the CFI debt and ownership of 80.77% of Langford Estates and duly paid off the debt.

In March 2018, FLA received a letter from CFI contesting the Sale of Shares Agreement and Debt Assumption and Compromise Agreement. The parties failed to reach an amicable resolution and CFI instituted legal proceedings against FLA in the High Court and Arbitration for cancellation of the debt assumption agreement and setting aside of the agreement of sale of shares respectively. Both matters are pending resolution before the two forums. The directors have engaged external legal counsel to defend the interests of Fidelity Life.
